

VIC-100

The VIC-100 GPS antenna is the telecom industry standard. It's triple-filter LNA provides excellent signal reception in high RF interference environments.

One version of the VIC-100 offers protection against lightning induced damage with circuitry that performs per IEC61000-4-5 standard.

Features:

- Through hole direct mount
- 4.5Vdc to 5.5Vdc voltage range
- 30dB gain
- Low loss molding resin
- Designed for precision timing applications
- Marine or pipe mount options
- Triple pole filter
- TNC or N connector options
